

★★★ 16TH ANNUAL

MICHIGAN DEFENSE EXPO

A PREMIER DOD BUYER/SUPPLIER EVENT

APRIL 08-10, 2025

MDEX-NDIA.COM

NDIA
Michigan Chapter

DEAR MDEX ATTENDEES:

Thank you for coming to the 16th Annual Michigan Defense Expo (MDEX). Since our last MDEX, we have seen a change in administration, and with it, a change in priorities. Even though our government leaders may have changed, once again, our mission has not. The NDIA Michigan Chapter continues to connect industry, government, and academia, so together we can provide the Warfighters on land, sea, air, and space with the best equipment American engineering and innovation can deliver.

As we begin another MDEX, leaders and priorities may change, but the need to maintain a strong military has not. The need to maintain peace has not changed either. Our military needs to maintain its technological edge even as it faces unprecedented challenges. To retain that edge, it needs American innovation. It needs American ingenuity, but at a price our nation can afford

During the next three days, as you network and showcase your services and wares, keep in mind that the Department of Defense must be able to afford them, and you must be able to deliver. If not, all the great ideas in the world won't be able to help anyone. So, make the most of the next three days. Listen, learn, and grow your business.

One last thing, if you are not officially a member of NDIA, please take a couple of minutes and join. It's well worth the investment, especially if you are a Government employee since it's free! In the meantime, good luck and I hope to see you in the exhibition hall or after one of the many quality presentations. Once again, thank you for attending MDEX.

Sincerely,

Valde Garcia

Valde Garcia

President, NDIA-Michigan

MDEX ATTENDEES AND EXHIBITORS,

Welcome to the 16th annual Michigan Defense Expo (MDEX)—where industry, government, and academia come together with a singular, unwavering mission: ensuring the men and women of our armed forces receive the most advanced, reliable, and effective equipment to maintain battlefield superiority.

At a time of increasing geopolitical tensions and uncertainty in U.S. defense policy, our work has never been more critical. The landscape of modern warfare is rapidly evolving, with adversaries investing heavily in next-generation capabilities, supply chain fragility threatening military readiness, and inconsistent defense budgets creating uncertainty for both industry and warfighters alike. In the face of these challenges, we cannot afford delays, indecision, or bureaucratic stagnation—our service members depend on us to deliver the solutions they need to fight and win.

MDEX is not just an industry event—it is a call to action. Every discussion, partnership, and contract signed this week directly impacts the lethality, survivability, and operational effectiveness of our forces. From cutting-edge autonomous systems and AI-driven decision-making to advanced combat vehicle platforms and next-gen sustainment solutions, the innovations shown here will define the future of warfare.

As Chair of MDEX and a member of the NDIA Michigan Board of Directors, I take this responsibility seriously. This is where policy meets production, where ideas become reality, and where our collective expertise shapes the battlefield advantage of tomorrow. The challenges ahead demand bold action, rapid execution, and unwavering commitment to ensuring our warfighters never enter a fight without the best possible equipment in their hands.

Over the next three days, I challenge each of you to:

- Engage deeply—forge partnerships that will accelerate innovation and eliminate bottlenecks.
- Think strategically—anticipate the threats of tomorrow and drive solutions today.
- Act decisively—our military cannot afford delays, and neither can we.

For those who are not yet members of NDIA, I urge you to join us. Our community is the driving force behind defense innovation and advocacy, ensuring that the warfighter always remains our top priority.

Thank you for your dedication, your expertise, and your unwavering commitment to the mission. Together, we will rise to meet the challenges ahead and deliver the capabilities our military needs to defend this nation.

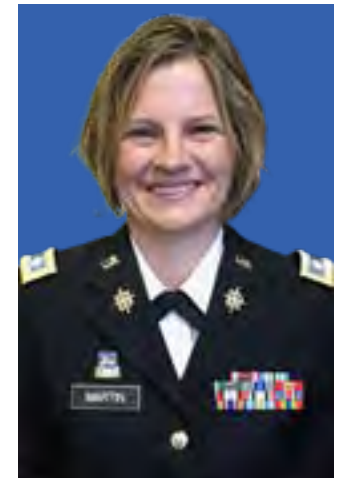

See you on the floor—let's get to work.

Honored to Have Served,

Misty Martin

Misty Martin, LTC (ret'd)

MDEX Chair, NDIA-Michigan

PROGRAM AGENDA

TUESDAY, APRIL 8

TIME	ACTIVITY	LOCATION
8:30 AM	Badge Pickup Opens for Attendees	Entrance
9:00 AM – 6:00 PM	Expo Floor Open for Attendees	Exhibition Hall
9:00 AM – 9:15 AM	MDEX 2025 Kickoff Welcome Remarks from Leadership	Briefing Hall
9:20 AM – 10:20 AM	Army Leadership Panel TACOM CG: Mr. Colley ACC-DTA: Mr. Jolokai GVSC: Mr. Cadieux PEO CS&CSS: Mr. Di Marco PEO GCS: MG Dean NGCV CFT: COL Bradley	Briefing Hall

FLOOR PLAN

MICHIGAN DEFENSE EXPO MDEX 2024

ADVANCING DEFENSE INNOVATION

Last year's Michigan Defense Expo (MDEX) united defense leaders, DoD officials, prime contractors, and small businesses to shape the future of national security.

2024 HIGHLIGHTS:

INDUSTRY ENGAGEMENT:

Attendees connected with military leadership, DoD buyers, and key decision-makers.

INNOVATIVE EXHIBITIONS:

160+ exhibitors showcased advanced solutions and capabilities.

EXPERT BRIEFINGS:

Three days of Sessions provided insights on industry trends, procurement, and emerging developments.

STRATEGIC NETWORKING:

Over 3,000 attendees forged partnerships across the defense ecosystem.

WHY MDEX CONTINUES TO MATTER:

MDEX is at the heart of Michigan's Defense Corridor, which produces 75% of America's ground combat systems and is home to 6,000+ defense contractors. Over the past decade, this region has secured \$26 billion in defense contracts, driving national security innovation.

LOOKING AHEAD:

Building on 15 years of success, MDEX remains committed to strengthening Michigan as a hub for defense innovation—ensuring our warfighters have the capabilities and support they need to succeed in their mission.

EXHIBITORS

ACE ELECTRONICS DEFENSE SYSTEMS

Since our inception in 1976, Ace Electronics Defense Systems has produced a variety of standard and custom cable assemblies, wire harnesses, electro-mechanical assemblies, box builds, and Kits for all industries. As both a prime contractor and subcontractor, we have established ourselves as one of the premier suppliers domestically and internationally.

ARMY

GROUND VEHICLE SYSTEMS CENTER (GVSC)

The United States Army Combat Capabilities Development Command (DEVCOM) Ground Vehicle Systems Center (GVSC), located in Warren, Michigan, is the U.S. Armed Forces' research and development facility for advanced technology in ground systems. The U.S. Army DEVCOM is a major subordinate command of the U.S. Army Futures Command (AFC). GVSC shares its facilities with the U.S. Army Tank-automotive and Armaments Command (TACOM). Current technology focus areas include Power and Mobility, Autonomous Systems, Force Projection, Survivability & Protection, Electronics and Architecture, Cyber Engineering and Software Integration.

<https://gvsc.devcom.army.mil/>

OFFICE OF SMALL BUSINESS PROGRAMS (OSBP)

We manage small business programs for U.S. Army Tank-automotive and Armaments Command at Detroit Arsenal, Michigan and TACOM's many sites around the U.S. We do this in compliance with Federal Acquisition Regulations and Department of Defense Directives.

The OSBP serves as an advisor to the TACOM Commander on small business matters, monitors command-wide performance to achieve program goals, and offers contractor counseling on business opportunities.

<https://tacom.army.mil/osbp>

APEX ACCELERATOR

The Macomb Regional APEX Accelerator is a not-for-profit organization funded by the Department of Defense (DoD), the Michigan Economic Development Corporation (MEDC) and local funding partners. The APEX Accelerator supports our national security by ensuring a broad base of capable suppliers for the defense industry and other agencies, thereby increasing competition, which supports better products and services at lower costs.

<https://www.macomb.edu/business/APEX/index.html>

SMALL BUSINESS ADMINISTRATION (SBA)

SBA works to ignite change and spark action so small businesses can confidently start, grow, expand, or recover.

<https://www.sba.gov/>

DEFENSE LOGISTICS AGENCY (DLA)

The Defense Logistics Agency manages the end-to-end global defense supply chain – from raw materials to end user disposition – for the five military services, 11 combatant commands, other federal, state and local agencies partner and allied nations.

<https://www.dla.mil/>

U.S. ARMY CONTRACTING COMMAND – DETROIT ARSENAL (ACC-DTA)

The Army Contracting Command - Detroit Arsenal is part of the Army Contracting Command (ACC), and is headquartered in Detroit Arsenal, Michigan at the TACOM Life Cycle Management Command (LCMC). With multiple geographic sites located throughout the United States, we are responsible for acquisition support and contracting for a large number of the Army's major weapon systems, for systems and equipment supporting other services, for depot-level maintenance services, and for foreign military sales customers. We insure warfighting readiness for the soldier by purchasing ground combat, tactical vehicles, armaments and small arms, chemical/biological systems, targetry, petroleum/water systems, construction equipment, combat engineering services, supporting services, and selected components. We are a customer focused organization with goals related to being the contracting service provider of choice, to delivering premier contracting products and services, and to being the employer of choice. We share a common focus on soldier and ground systems throughout the entire life cycle with TACOM LCMC.

<https://acc.army.mil/contractingcenters/acc-dta/>

TACOM OMBUDSMAN

Our mission is built on our desire to gain your trust. We know that in order for the Army to succeed, we need to help you be successful. That's why we, the team in the TACOM Ombudsman Directorate, work hard to make sure that we receive, review and provide quick resolutions to all your acquisition-related inquiries.

<https://tacom.army.mil/ombudsman>

TACOM INTEGRATED LOGISTICS SUPPORT CENTER (ILSC)

The TACOM ILSC booth feature a comprehensive overview of TACOM's Class IX procurements, including forecasted requirements for the current fiscal year in addition to the subsequent 72-month period.

(*see ACC-DTA website for list TACOM's Class IX procurements and forecasted requirements).

Within this framework, TACOM oversees six key facilities:

ANNISTON ARMY DEPOT (ANAD)

Located in Anniston, Alabama, ANAD specializes in the maintenance and overhaul of heavy-tracked combat vehicles and small arms weapon systems.

RED RIVER ARMY DEPOT (RRAD)

Situated near Texarkana, Texas, RRAD focuses on the maintenance and remanufacturing of tactical wheeled vehicles, including Mine Resistant Ambush Protected (MRAP) vehicles and the High Mobility Multipurpose Wheeled Vehicle (HMMWV).

ROCK ISLAND ARSENAL JOINT MANUFACTURING AND TECHNOLOGY CENTER (RIA-JMTC)

Based in Rock Island, Illinois, RIA-JMTC is a full-service manufacturer of military equipment and components, supporting various weapon systems and providing critical manufacturing capabilities.

SIERRA ARMY DEPOT (SIAD)

Located in Herlong, California, SIAD provides logistics and sustainment services, including equipment receipt, storage, maintenance, and repair.

WATERVLIET ARSENAL

Situated in Watervliet, New York, this arsenal is renowned for producing much of the Army's gun tubes and associated parts for tanks, artillery, and mortar systems.

JOINT SYSTEMS MANUFACTURING CENTER-LIMA (JSMC-LIMA)

Located in Lima, Ohio, JSMC-Lima is integral to the production and maintenance of armaments and combat vehicles.

NON PROFIT EXHIBITORS:

Macomb Regional APEX Accelerator

The mission of the Macomb Regional APEX Accelerator is to enhance the national defense and economic development of the State of Michigan by assisting businesses in local, state and federal government contracting.

ACCELERATING
INNOVATION

The National Advanced Mobility Consortium (NAMC) is a **Member-led, non-profit** that accelerates **ground vehicle, automotive, and intelligent systems technology** for the Department of Defense (DoD).

NAMC serves as a **trusted bridge between Government and Industry**, breaking down barriers for small businesses and non-traditional defense contractors. By **streamlining the acquisition processes** and enabling cost-effective technology development, NAMC helps **maximize program execution dollars**, ensuring the Warfighter receives cutting-edge solutions—faster.

**PROVEN ON THE BATTLEFIELD.
TRUSTED BY THE WARFIGHTER.**

The battlefield is no place for compromise.

Warfighters shouldn't have to choose between mission-critical performance and innovation. That's why Leonardo DRS' proven platform computing & AI, GVA compliant processing systems are both. Our sensor and network integrated systems are linking legacy, current and future capabilities together -connecting warfighters to the actionable mission information they need, all while protecting from cyber threats and reducing size, weight, power and cost (SWAP-C) — ultimately enabling situational understanding.
